Electricity in Los Angeles

No. 12.  
[In the Church]

## The First Baptist Church

THE new home of the First Baptist Church of Los Angeles occupies an L-shaped site having 281 feet frontage on Westmoreland Avenue, 242 feet on Leeward Avenue, and 111 feet on Eighth Street.

The church building, costing more than a million dollars, is of Southern Gothic design, combining rare architectural beauty and dignity.

A great tower, rising 155 feet from the pavement, at the corner of Westmoreland and Leeward, is a dominating feature. Two minor towers enrich and beautify the Eighth Street facade.

The building is three stories high and contains one hundred and six rooms, seventy-five of which are devoted to the Bible School and work of religious education.

The main auditorium seats 1,910. It is of the traditional cruciform design, with narthex, nave, east and west transepts.

Its beautiful ceiling was inspired by the ceiling in the chapel of the ducal palace at Mantova, Italy.

Three beautiful rose windows, two 14 feet in diameter and the other 9½ feet, are copied from those in the famous medieval Chartres Cathedral in France.

The great organ—said to be the largest in Southern California—has 70 stops and 3,910 pipes.

Other noteworthy features of this modern church home are a banquet room seating 471, an athletic room for boys and girls, a Social Hall, seating 520, with a stage and motion picture apparatus, and a Chapel seating 290 and having its own separate pipe organ.

The modern church building, like other modern institutions, makes important use of electric service in its operation.

The First Baptist Church, for example, uses

- 45 horsepower of electric energy for lighting
- 25 horsepower of electric energy to operate two pipe organs
- 35 horsepower of electric energy to operate ventilating fans
- 4½ horsepower of electric energy to operate oil burners
- 2 horsepower of electric energy to operate oil pump and vacuum
- 1½ horsepower of electric energy to operate small vents

The electric service of the First Baptist Church is supplied by Los Angeles Gas and Electric Corporation.

HOOVER FRIENDS  
VISION VICTORY

Not Worried Over Where  
G.O.P. Meet Will Be

Detroit Still Believed to  
Have Inside Track

Decision Comes Wednesday;  
Session Opens Today

BY ROBERT B. ARMSTRONG  
"Times" Staff Correspondent  
WASHINGTON, Dec. 4. (Exclusive)—Friends of Herbert Hoover of California and a candidate for the Presidency in 1928 are not much concerned where the national Republican convention is held. If it should go to California the whole State would be for him; if Kansas City he would be the best choice after Senator Curtis and former Gov. Lowden of Illinois are eliminated. If Detroit is the hub city he will have the entire support of the leaders of the State and will be in the heart of the automobile industry, which has had so much to do with bringing to world popularity.

If it goes to Cleveland or Chicago he has friends in both places. In fact, Hoover's many friends now in Washington awaiting the opening of the important session of the executive committee of the Republican party tomorrow morning followed by the full committee meetings Tuesday and Wednesday say that they are like the man about to go to his last resting place. When asked where he was going he replied, "I don't matter, I have a lot of friends in both places."

DETROIT IN LEAD

More and more of the members of the party now here for the momentous decision as to the 1928 campaign are convinced that President Coolidge is entirely eliminated and likewise are convinced that with Congress in session until the eve of the Republican convention it will go to some near-by city of only a night's ride away from Washington. Tonight the choice looks like Detroit in first place, Cleveland second and Kansas City in third place. The latter is the choice of David Mulvane of Kansas, the National Committeeman of Kansas, who wants it there to help his first friend, Senator Curtis. Floor leader of the Republican side of the Senate since his arrival here he has interested Joseph Keating, who is a fellow-member with him on the executive committee of the party. They have done everything possible to get Kansas City selected for the big event regardless of the fact that it is the home of the stormy petrel of the Democratic party, Senator Jim Reed, whose specialty is muckraking over primary and national elections. They have met with some success but the convention hall is none of wood, the hotel accommodations not adequate as compared with other bidding cities and the weather in June is always above 90 deg. and then some. All of these objections are being urged against Kansas City and have due weight.

The Detroit and Michigan cohorts are all here chanting the large number of good hotels and the new auditorium that can seat 17,000 easily, and they are determined to hold their lead. Cleveland is being urged by Carmel Thompson, who investigated the Philippine Islands for President Coolidge, but the fact that the 'ast' Republican convention was held there and it is almost certain that the birthplace of Dawes, somewhat difficult even for an old wheelhorse like Col. Thompson.

SELECTION WEDNESDAY

National Committeeman Crocker, broker and doing everything to get the convention to go to San Francisco, where it was headed until Calvin Coolidge spilled the Republican beans in the Black Hills last August. Then it was to be a mere relocation of the Coolidge administration program and the renomination of the President for his second elective term. Before the second of August it looked fine for San Francisco but since that fatal day everything has changed and the Republican leaders in the Senate and the House expect to be held in Washington until at least June 10. With the convention opening on Tuesday, June 13, San Francisco is too far away for the purpose and Mr. Crocker has brought that carefully explained to him by the other leaders of the party.

Tomorrow the executive committee will settle all the controversial matters held over and have everything ready for the future committee to act when it comes. Tuesday afternoon they will gather in the East Room of the White House as guests of President and Mrs. Coolidge and will listen to the Chief Executive Wednesday the world will know where the Republicans will meet in 1928 but when the Republican National Committee meets and women leave here they will go home to procure the nomination of some other Republican than Calvin Coolidge, who still remains steadfast to his decision of August 2 that he does not choose to be a candidate in 1928.

FEEL ANALYZES  
PRESIDENT'S ATTITUDE

NEW YORK, Dec. 4. (Exclusive)—President Coolidge's "I do not choose" statement is conclusive on his candidacy but will not prevent the Republican party from drafting him, United States Senator Fess declares in an article in the weekly magazine, Christian Herald dated the 10th last and made public today. Furthermore Senator Fess says, in his latest discussion of the President's famous Black Hills statement, acceptance of the nomination will not be inconsistent nor dishonorable.

Soviets Deny  
Ukraine Upset

MOSCOW, Dec. 4. (P)—The press department of the Foreign Office issued another denial of disorders in the Ukraine printed in Bucharest (Rumania) newspapers.

The statement says that in spite of repeated official denials the foreign press continues to refer to struggles with the opposition and to report revolts among the population and rebellions in the Red army in the Ukraine.

"There is not a grain of truth in these reports," asserts the statement, "and absolute calm prevails in the Ukraine."

SALT DEPOSITS  
HOLD MUMMIES

Prehistoric Tribesmen Get  
Trapped in Mins

Sodium Sulphate Preserves  
Bodies Perfectly

Specimens Put in Arizona  
University Exhibit

TUCSON (AP), Dec. 4. (Exclusive)—Two remarkably well-preserved mummies, just added to the university ethnological collection, are from the sodium sulphate deposit, near Camp Verde, Yavapai county. It is considered probable that discovery has been made of the earliest type of southwestern man, preserved in the salt more effectively than the ancient Egyptians preserved their dead. It has been demonstrated that these old-time Arizonians were not buried by their tribesmen, but were crushed to death under a falling roof while engaged in mining salt for domestic needs. Beside them were the crude stone tools with which they were tunneling into the deposit. Even the wooden handles of the tools are intact, as are reed sandals, with fragments of baskets and matting. Especially is noted the fact that the hair of the accident victims is brown, not at all resembling that of the later-day aboriginal residents of the Southwest.

## DAVIS PICTURES LAND OF PLENTY

Labor Secretary Reports on  
Record Prosperity

World's Eyes Assured to Be  
Turned to America

Advice Given as to Ways to  
Continue Condition

WASHINGTON, Dec. 4. (P)—In prosperity and happiness the American people so stand as to be the subject of admiration and study the world over. Secretary Davis declares today in the annual report of the Labor Department. He calls for maintenance of high wages and welfare, for control of immigration, and for modification of antitrust laws to allow the condition he describes to be maintained.

"While we take into account the splendid life of plenty and peace we enjoy," the Labor Secretary says, "we must not suppose that all is perfect with us. The distribution of our national wealth is good, but it is not perfect."

"No matter on what plea or excuse, reduction of wages is bad business and worse economics. The time has passed when an industry or employer who seeks to lay down wage scales will be looked upon by the community as shrewd or clever in industry."

**MUTUAL GOOD WILL**  
"It is the mutual willingness of the worker to produce and the employer to pay for production that accounts in large measure for our present prosperity. It has crowded the home market with millions of ready consumers and buyers; it has stocked that market with an infinite variety of goods for improving the standard of living."

Mr. Davis declares that the "simple secret of the national prosperity" is in the maintenance of high production and high wages has resulted in cessation of strike activity, and predicts that this condition would continue "never before in the history of American industry has the country witnessed such a degree of general harmony between worker and employer. This attitude of mutual respect, good will and partnership is growing in the country."

**ONE LAGGING INDUSTRY**  
The Labor Department head mentions the bituminous coal-mining industry as the one industry that lags behind others in living up to American standards of organization and business administration, remarking on protracted strikes in coal production, and suggests that one way out of that industry's difficulties might be the alleviation of antitrust law pressure against business consolidation.

"I have observed not a few situations in which it seemed to me that consolidation or combination in the field of industry would be of much benefit to the general public," he says, after citing the coal industry as an example of such a situation. "The combination of selling agencies would aid in solving the problems of coal mining. Such organization of mining, and that alone, will stabilize production."

## NEVADANS WEALTHIEST

NEW YORK, Dec. 4. (Exclusive)—Nevada with less than 80,000 inhabitants had a greater share of wealth in proportion to its population than any other State in the Union, according to a computation made by the National Industrial Board, on the basis of estimates for 1925. Although the total wealth of Nevada is only \$565,000,000, less than that of any other State, its per capita share is \$7,200.

New York State, harboring one-tenth of the population of the United States with a total wealth of \$40,100,000,000, or nearly one-eighth of the total for the nation, ranks fourth in per capita wealth, which for 1925 is estimated at \$5,950.

Mining and agricultural States in the Far West, Northwest and Middle West show the greatest per capita wealth, Nevada, Wyoming, South Dakota, Iowa, Oregon, Nebraska, California and North Dakota ranking highest in the order given. The great industrial States show the largest total shares in the national wealth but none of them shows a per capita figure high enough to be included within the first eight States.

tion, eliminate the wastes of over-production, and make employment and wages continuous."

While supporting several recommendations for improving operation of the immigration law, the Secretary asserts that present American restrictions give the alien "more rights, more sympathetic consideration, more actual courtesy and safeguard than any other country in the world."

He includes with the report the summaries of the activities of the various bureaus which "make up the Labor Department."

**JERSEYTE FOUR DAYS**  
**LEARNING HE'S SHOT**  
NEWARK (N. J.) Dec. 4. (Exclusive)—Herman Leen, 65 years of age, was shot and didn't know it. Finding a bullet in his overcoat pocket today he discovered it had caused a mysterious wound sustained on his left hand early Thursday while walking on the street. He had his hands in his overcoat pockets at the time, and remembered feeling a stinging sensation in the index finger, which he later found was cut. Today after finding the bullet that grazed the finger, he located the hole where it had pierced his coat and the pocket lining.

## WORK POINTS TO DAM-ROW PERIL

Secretary Discouraged by  
Colorado River Fight

States First Must Settle  
Controversy, He Says

Danger of Losing Chance of  
Federal Aid Seen

WASHINGTON, Dec. 4. (Exclusive)—Secretary Hubert Work in his annual report for the year is not too optimistic about any legislation in the coming Congress for Boulder Canyon. He indicates that unless the States affected by the improvement of the Colorado River iron out their differences the Federal government will not press such legislation. In this view he also reflects the views of President Coolidge who repeatedly has called on all the Colorado River States to procure an agreement before Federal aid is given.

Secretary Work's special advisory committee will not have completed their various reports until January 1 and no speedy action is expected by Congress until after the conference between California and Arizona representatives next week leads to some definite agreement. Members of Secretary Work's special committee held several informal conferences this week and after having obtained a great deal of data now are busy completing their reports to him for his guidance in Federal aid in the Colorado River legislation if any is to be granted by the Federal government.

**DOES NOT MINCE MATTERS**  
In referring to the Colorado River situation Secretary Work does not mince matters. He says in his report, available for members of the House and Senate tomorrow:

"The development, regulation, and control of the Colorado River has been the subject of investigation by engineers and other experts of this department for many years. Feasible projects for dam construction, water measurements made, and a large amount of other data gathered."

"The interest of the Federal government is based primarily on the fact that the stream is not only interstate but international. That several Federal reclamation projects have been constructed and are under construction from this stream, and the fact that the development involves flood control, irrigation, power development and domestic water to a very large area."

"Of perhaps primary importance is the protection from floods of Imperial Valley, California, and the Yuma reclamation project, Arizona, with their large investments and tremendous agricultural resources. Indirectly the same storage will provide water for irrigation of large areas of fertile arid lands and domestic water for Southern California."

**ENGINEERS' CONCLUSIONS**  
"Engineers and economists have reached the conclusion that the reclamation of the Colorado River by such a structure would be a reasonable period of years return the entire cost. The primary development and sale of hydroelectric power by the government is not consonant with the policy of the department, but its subsidiary development of storage dams brings a direct reimbursement for Federal expenditure in constructing projects, and often supplies electricity for homes, agriculture and municipalities not available from other sources."

"As indicated, the problems are so numerous and varied that interstate and international compact or treaties were deemed advisable. While the matter was the subject of a bill which received long and careful consideration in Congress during the last session such compact have not been finally consummated. In fact, at present writing negotiations are made by some, which, if maintained, might leave the Federal government without reason to expend further time and money in connection with the project."

"If the rights and privileges incident to such project are purely local and intrastate there would appear to be no warrant for the expenditure of Federal money for its construction. If, however, as was the view when the departmental investigations and reports were made and the legislation proposed in Congress at its last session, the Federal government has rights and interests in the whole matter should receive further consideration. Therefore, during the past summer I procured the services of several eminent engineers and attorneys to make individual reports to me with the view of being thereby enabled to submit to you further information relative to this project and its problems."

**WORK'S SUGGESTIONS**  
"These storage works being not only of interstate character but also vital to public interest, in their phases of flood control-irrigation and domestic water supply, and especially in the protection of our international water rights, I deem that the dam should be constructed with Federal aid and under Federal control."

"Moreover, the Federal government should in all prudence endeavor to cover the cost from the power potentialities and other revenues. Leases of the rights to use the water to the highest bidders would be the simplest and best means of reimbursing the Federal government for its outlay. In March of last year I publicly invited proposals for such leases from those interested in the generation and distribution of hydroelectric power."

"I have suggested that if it should prove that no adequate lease could be procured from parties willing to undertake generation and distribution then the government should have authority to erect the power plant and lease the plant itself, and I have considered that if no adequate contract of this character could be made then the government should have authority to generate and sell the power at the generating station to persons willing to purchase it and provide their own transmission and distribution."

Secretary Work devotes a good deal of his report to the greatly developed interest of the American public in the great development of the national parks.

**PLOT CHARGE DISMISSED**  
PHOENIX, Dec. 4. (Exclusive)—A charge of conspiracy against three Mexican residents, dismissed in the United States Court, was based upon the beating of a letter carrier, who had resisted the action of one of the trio in throwing on the floor money that had been due for a collect package. Two of the three defendants were fined \$25 each in the City Court.

**Headaches from Slight Colds**  
Lecturer BRONCO GUINNESS relates the headache to cooling of the head. A cold from Bronco. Look for signatures of B. M. Gove on the box.

## Keep The Children Healthy at Christmas

## Father John's Medicine

**BUILDS STRENGTH TO WARD OFF COLDS**

**B**E CAREFUL of the children's health at this time. A neglected cold may develop serious illness later. Because her mother used it when she was a little girl, Mrs. J. J. Whitney, Melrose, Mass., knows the value of Father John's Medicine when any of the family has a cold or a cough, or has become run down. Its healing properties soothe the throat irritation and it helps to drive out impurities. After any exposure to the rigors of out door life Father John's Medicine is an excellent tonic. Being a pure food medicine it builds energy, flesh and strength. It does not contain alcohol nor any nerve-deadening drugs.

## Rectal Treatment Recommended by the Thousands We Have Benefitted

**Former patients send relatives and friends to receive Dr. Chas. J. Dean treatment for Rectal and Colon diseases. No hospital surgical operation involved**

Response to the opening of Dr. Chas. J. Dean offices in Los Angeles was immediate. Many people from this section had journeyed to our offices in San Francisco, Portland and Seattle for treatment for Piles and other Rectal and Colon disorders.

Therefore, upon our establishment of fully equipped quarters and an organization of trained specialists here, these former patients began sending others likewise afflicted. In fact, this personal recommendation from one to another on the dependability of our method is the direct cause of the astounding expansion in our practice throughout the West.

The personal experience and names of hundreds of former patients are contained in our new FREE book on Rectal and Colon diseases; also facts about our method of treatment without hospital surgery; and the details of our WRITTEN ASSURANCE TO PERMANENTLY RELIEVE ANY CASE OF PILES, no matter how severe or chronic, OR REFUND THE PATIENT'S FEE.

If you have any Rectal or Colon ailment whatsoever, call or write for this FREE book TODAY.

# The House of Better Values Offers Many Gift Suggestions

I N the maze of Christmas gifts there is always one which stands apart from the others. Frequently it is something thoughtfully selected to make the "home" just a little more comfortable, just a little more attractive.

**Buy Now and Pay Next Year**

**A Gateleg Table**  
—Always a cherished gift. Made in hardwood with finely textured mahogany top, finished dull satin. Size, top leaves open 30x40 inches. Closed 30x12.  
**A Value \$19.75**

**Fire Screens**  
Single or three panel. Hand wrought iron in distinctive patterns—from \$25 to \$72

**Clocks of Character**  
Clocks that are a joy to own—a Christmas gift suggestion that abounds in the true expression of home spirit—a gift that honors the recipient. On display—clocks that are fresh in appeal and genuine in their inward qualities—with a goodness and beauty that recognizes no peer. Solid Honduras mahogany cases ornamented with rare burla, imported movements of marvelous refinement, designs that only a genius could conceive and execute—at prices that are surprisingly low. See these new arrivals. Banjo Clocks—Mantel Clocks—Hall Clocks.

**Wing Chair, \$48.50**  
Comfortable and most attractive in its figured cretonne or chaise covering—Excellent construction with web bottom and separate spring filled seat cushion.

**Coxwell Chair**  
A gift that will give lasting comfort and permanent beauty. The reversible, spring-filled seat, cushion and back are upholstered in warm tones of choice frieze—From the shops of "Karpen."

**Bureau Desk, \$39**  
Three large drawers give ample storage room. Spacious writing compartment. In dull mahogany finish.

**Desk Chairs to Harmonize \$8.50 and Up**

**Cook Your Christmas Dinner on a New A-B Gas Range**  
Priced from \$23.75 to \$325  
—Third Floor

**Coffee Table**  
In antiqued wrought iron with Spanish tile top. Size 13x19 inches. Bright in coloring and artistic in design. \$22.50

**Tile Top Refreshment Table, Only \$12.50**  
The hand-wrought iron base is finished antique. Size top, 16x24 inches.  
—Main Floor

**Ornamental Mirrors**  
Add so much to the finished beauty of the room—Refreshing new designs that have the distinct appeal of true art—Venetian, Semi-Venetian, French Colonial, Metal Leaf and Period Styles to match your room—  
Priced from \$13.75 to \$225.00

**Decorative Chairs**  
In our extensive display—pieces of rare beauty with imported carved frames and antique walnut or dull lacquer finishes. Coverings of needlepoint, fine damask or brocade silk velvets.

**Magazine Holders**  
**Sewing Cabinets**  
**Tilt-Top Tables**

## Loosen Up That Cold With Musterole

Have Musterole handy when a cold starts. It has all the advantages of grandma's mustard plaster without the burn. You feel a warm tingle as the healing ointment penetrates the pores, thus a soothing, cooling sensation and quick relief.

Made of pure oil of mustard and other simple ingredients, Musterole is recommended by many nurses and doctors. Try Musterole for bronchitis, sore throat, stiff neck, pleurisy, rheumatism, lumbago, sprain, neuralgia, congestion, pain, and aches of the back or joints, sore muscles, eczema, bruises, chilblains, frostbite, colds of the chest. It may prevent pneumonia and "flu."

At the first sign of a cold in the head take Musterole Cold Tablets. They usually give prompt relief.

## STOMACH UPSET

Get at the real cause. That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—sluggish liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, every gas, indigestion and stomach trouble.

Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested food? Take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. Know them by their olive color. They do the work without griping, cramps or pain. All druggists.

Take one or two at bedtime for quick relief. Eat what you like. 15c, 30c, 60c. —Advertisement.

## Stop Getting Up Nights

IF YOU get up many times at night by reason of bladder trouble, have pains in back, weakness or dizziness, general debility, painful, smarting and difficult urination, lack of control of urine, symptoms of prostate trouble, try PALMO GLOBULES. This remarkable treatment has been used successfully by thousands. So confident that it will succeed, we will send a trial treatment ABSOLUTELY FREE to any sufferer who has never used it. No obligation or cost. Write today.

THE PALMO COMPANY

## WET CHANCES NIL, SAY DRYS

"Pussyfoot" Johnson and Willis Address Meeting

Berger, Butler and Smith Scored by Speakers

Tribute Paid W. B. Wheeler, Publicity Indorsed

WASHINGTON, Dec. 4. (P)—Delegates to the Anti-Saloon League convention were told today by William E. (Pussyfoot) Johnson and Senator Willis, Republican, Ohio, that no candidate known to favor "nullification of the Eighteenth Amendment in the 1928 election" will touch the White House.

"The Victor Berger, the Nicholas Murray Butler and the Al Smiths of the country," Senator Willis declared, "are not going to write the party platforms of the coming campaign."

Mr. Johnson asserted that the number of arrests for drunkenness in large foreign cities far exceeds in proportion to population the number of arrests for the same offense in New York, which he described as "possibly the wickedest city in the United States."

STILL PANTING DANGEROUSLY  
"Six men who have been implicated in the racketeering of that city are in jail," said Johnson, "and still on his property. 'Anyone else who wants to know what the inside of a jail is like can just go up to New York and plant a still on my farm.'"

Tribute was paid to the memory of the late Wayne B. Wheeler, former general counsel and legislative superintendent of the league, by Senator Willis, who praised Wheeler's "legal ability, kindness, unflinching optimism and personal integrity."

"The overthrow of prohibition is inevitable if the opinions of leaders of the younger generation of Americans are not changed," Stanley High, New York, of the Board of Foreign Missions of the Methodist Episcopal Church, asserted.

Teaching of the effects of the use of alcohol to children in the public schools and the creation of a publicity bureau to keep the country informed on prohibition developments were endorsed by Senator Willis.

Temperance and sobriety rather than complete prohibition should be the keynote of the dry organization's campaign to uphold the amendment, Seymour Lowman, Assistant Secretary of the Treasury in charge of prohibition, told the convention. He warned that "a great crisis on the subject of prohibition" is approaching.

If the young men and women of the country would join churches and temperance organizations, the work of the dry workers would be considerably lightened, he continued, asserting that they form a real obstacle in the path of enforcement.

WASHINGTON, Dec. 4. (Exclusive)—"Honest and constitutional government in the United States does not today exist," by reason of the nullification of the Fourteenth and Fifteenth Amendments to the Constitution, Representative Tinkham, Republican, Massachusetts, made public tonight the text of a resolution he will offer in the House tomorrow aimed at the disfranchisement of negroes by the Southern States.

The resolution provides that in preparation for the next Congressional apportionment under the 1920 census, the House shall investigate the extent to which the right to vote has been abridged by any State. The Fourteenth Amendment directs that the representation in Congress of any State bridging the right to vote shall be reduced in proportion to the number of voters disfranchised.

WASHINGTON, Dec. 4. (Exclusive)—"Humanitarian instincts have prompted two negro graduates of Marquette University College of Dentistry to establish a dental clinic in Liberia on the west coast of Africa."

Native of Liberia, according to word received from Dr. H. Jones, a Liberian medical missionary, are forced to walk fifty and 100 miles for medical and dental attention.

One of the favorite methods of treating the natives' infected teeth is to remove the offending molars with a hammer and chisel, Dr. Jones wrote.

The two young doctors, who are seeking apparatus and equipment for the establishment of the clinic, are Andrew E. McDonald, who has been practicing in Chicago and Moline, Ill., and Victor Nichols, who maintains offices in Milwaukee.

## BIRTH RECORD OF FAMILY ODD

Four Mississippi Tots Born in Different Years Have Two Birthdays

HICKORY PLAT (Miss.) Dec. 4. (Exclusive)—"Rather an unusual and unique circumstance has come to the D. D. Hanks family of this place. The parents have four children and only two different birthdays. Edna, 11, was born on April 2. Lucile, her sister, was born five years later on the same date. Three years later Maxine was born on November 17. Three years later on this date, November 17, a baby boy was born."

WASHINGTON, Dec. 4. (Exclusive)—"Wage-earners and other employees of corporations in the United States own or now are making payments for the purchase of considerably more than \$1,000,000,000 worth of securities of the companies by which they are employed, according to the results of an investigation made by the National Industrial Conference Board, in the course of a study of employee stock-purchase plans."

Many more millions have been invested by employees in companies other than those for which they work, through savings bank deposits and life insurance. The \$1,000,000,000 worth of stock purchased by employees in the employing companies, which is the present market value of their investment, is distributed among some 800,000 employees, an average of about \$1,250 per employee stockholder.

While these figures are significant as showing the extent of the development of employee stock ownership during recent years and to a degree the growing diffusion of the ownership of securities, the chief significance of stock purchasing by employees, as indicated by the conference board's report, is its value as a factor in promoting the habits of saving and thrift among employees. This the conference board, on the basis of an analysis of the experiences of several hundred companies with stock-purchase plans, finds has been more important even than the direct influence stock ownership may exert on the employee's interest in the company's affairs and his relations toward the employing company.

The conference board finds little evidence of employee stock ownership being a potential factor in furthering the so-called "democratization of industry," but emphasizes employee stock-purchase plans as a valuable means of helping wage-earners to provide against old age by aiding them to acquire an independent source of income during the active years of their earning capacity.

The feeling of security obtained through such savings, many employees report, definitely reflects itself in the quality of the product. Not a few companies, the conference board finds, also have found the sale of stock to their own employees a valuable means of raising capital economically, particularly at times when investment-market conditions were unfavorable.

WASHINGTON, Dec. 4. (P)—Until the people abroad have reversed their official attitude to prohibition every official is bound by oath to uphold the law and refrain from anything that encourages its violation. F. Scott McBride, general superintendent of the Anti-Saloon League, declared tonight.

Discussing the address Friday night of Gov. Smith of New York, in which he asserted he saw no reason why any group of voters should not oppose the prohibition laws, Mr. McBride said that while any group had the right to oppose any law, neither citizen nor official has the right to suggest or encourage violation of the law.

"In a government by the people any group has the right to agitate for the repeal of any statutory or constitutional law," he said. "But so long as any constitutional law or any statutory law is in effect it is the obligation of the citizens to obey and the obligation of the official to enforce the law."

"Anyone who agitates the right of either citizens or officials to oppose honest administration of any law is contributing toward the disintegration of our form of government," he added. "If those who hate prohibition are conceded the right to oppose the operation and honest enforcement of this law, other groups which hate other laws must be conceded the same right."

"I do not deny Gov. Smith or any official the right to his opinions on the value of prohibition as a solution to the liquor problem, but I do insist that Gov. Smith and every other official by virtue of his oath of office has assumed the obligation to support the law so long as it shall be in effect."

"As things now stand," he concluded, "prohibition is the supreme law of the land, made so by the most decisive and overwhelming expression of popular will ever recorded."

## Three questions every renter asks: "What do I want?" "How large?" "Where is it?" It's easy to find the answers in Times Rental Ads.

WASHINGTON, Dec. 4. (P)—Since enactment of the prohibition law the Federal courts have imposed fines aggregating more than \$42,000,000 and jail sentences totaling more than 22,500 years.

This was shown in figures made public by the liquor law enforcement division of the Justice Department. At the end of the fiscal year, June 30, 1927, there has been \$23,507 Federal convictions and 996 acquittals under the Prohibition Act.

The records show twenty-three convictions to each acquittal since the law went into effect and the average for the past fiscal year was thirty-three convictions to each acquittal.

During the fiscal year 1927, 17 persons were sentenced to jail or prison for an average of 130 days each. For criminal acts committed in violation of the prohibition law, 26,778 persons were fined during the year, the average fine being \$213.

The City Transit of Cincinnati has awarded gold medals to six of its drivers for driving motor buses for a year without a single mishap.

WASHINGTON, Dec. 4. (P)—Delegates to the Anti-Saloon League convention were told today by William E. (Pussyfoot) Johnson and Senator Willis, Republican, Ohio, that no candidate known to favor "nullification of the Eighteenth Amendment in the 1928 election" will touch the White House.

"The Victor Berger, the Nicholas Murray Butler and the Al Smiths of the country," Senator Willis declared, "are not going to write the party platforms of the coming campaign."

Mr. Johnson asserted that the number of arrests for drunkenness in large foreign cities far exceeds in proportion to population the number of arrests for the same offense in New York, which he described as "possibly the wickedest city in the United States."

STILL PANTING DANGEROUSLY  
"Six men who have been implicated in the racketeering of that city are in jail," said Johnson, "and still on his property. 'Anyone else who wants to know what the inside of a jail is like can just go up to New York and plant a still on my farm.'"

# RAIL TEST SUCCESS

Operation of  
Road Pays Profit

Deal Serious Blow to  
State Ownership

Postal and Wire  
Business Probable

LOS ANGELES, Dec. 4. (Exclusive)—  
The operation of the railroads has been the first year  
since the government owned the railroads, into which  
the country was forced by the  
collapse of a year ago, that  
the railroads, telephones and tele-  
graphs is destined soon to  
be placed in the hands of the  
people.

The system, which poten-  
tially is a gold mine, yielded a mere  
profit of \$100,000, although the  
government had yielded anything  
from \$10,000,000 to \$20,000,000  
to the railroads out of the  
treasury at the head of the de-  
partment. It is expected that "Mr.  
McAdams," the chief of the rail-  
road department, will seize  
the opportunity to give the theory  
of ownership another  
test, making the system yield  
a profit in the hands of an au-  
thoritative company. Public opinion  
is good at the success of  
the government and is con-  
vinced that the transfer, which  
has been in the hands of the  
government for fifteen months  
has been a success.

The railroads always were  
a part of the nation's history. For the  
first time in the history of the  
country, they are a liability.  
The government, from June, 1917,  
has been in the hands of the  
people, and the railroads are  
a part of the nation's history.

The country is completely au-  
thoritative. The first step is to  
take the railroads out of the  
hands of the government and  
place them in the hands of the  
people. The second step is to  
take the telephones and tele-  
graphs out of the hands of the  
government and place them in  
the hands of the people.

The country is completely au-  
thoritative. The first step is to

Found  
Guilty of Fraud

# 756,648 died of preventable disease last year!

## Which Disease Threatens You?

Following the fortunes of nearly every family there is a disease which, from time to time, reaches out and strikes down a member, sometimes several or more in a single generation.

It may be cancer or heart disease or tuberculosis, one of the dread kidney diseases, pneumonia, apoplexy or some other ailment not mentioned here.

But every person is more susceptible to some one disease than to any other.

In your case you know which it is. You know which members of your family it has cut off in their prime and for all you know, you will be the next to go.

### You Can Avoid It

But remember this, if you fall into the clutches of the disease you fear, or of any other disease, it will be your own fault.

No disease can conquer a healthy person.

If you take steps now, while you still have it, to retain your health, if you avoid the errors of living that destroy the power of the human body to resist disease, there is no reason why any disease should ever get the better of you.

And if you have already fallen victim or feel that you are on the verge, unless you are indeed far gone, the same pleasant common sense mode of living that retains health will do much to restore health to you.

### Begin Now to Protect Yourself

In this connection Physical Culture can be of tremendous value to you. In the December issue there are twenty-four health articles of vital interest to every man and woman. For instance, there is an

article by Bernard Macfadden entitled "Build Vitality With Friction Baths" in which he shows, by concrete example, the almost unbelievable value of such treatments, especially to those having or fearing tuberculosis.

In the same issue Mrs. W. Dixon writes on "I Cured My Goitre by Natural Methods," explaining in detail the amazingly simple method employed by Mrs. Dixon to rid herself of this terrible malady forever—a method that anyone so afflicted can easily apply.

"I Regained Lost Youth—Here's How" is a startling revelation of the secrets of rejuvenation discovered by a woman who re-made her body at fifty-six.

The perils of mastoiditis and how to prevent this deadly disease which claims so many victims is the theme of a remarkably enlightening article entitled "Ear Troubles and Mastoiditis—Will They Get You?" by La Forrest Potter, M. D.

### Tomorrow May Be Too Late!

The above four features are typical of the twenty-four tremendously helpful health features in December Physical Culture. Naturally in any one issue space prohibits the publication of articles dealing with all subjects of health; but Physical Culture treats of several new subjects each month, and an early issue will be almost sure to feature the subject you are most vitally interested in. Don't postpone a decision that may mean life or death to you or your loved ones. Get the December Physical Culture today.

- 106,840 died of cancer
- 214,026 died of heart disease
- 99,917 died of tuberculosis
- 97,379 died of apoplexy
- 130,608 died of kidney diseases
- 107,878 died of pneumonia

# NEW FORD CAR exceeds all expectations

*Official announcement of new model last week created unusual interest throughout entire country*

THE new Ford car has been on the market only a few days, but it has already created unusual interest throughout the country. Millions of people got the full details of it last week for the first time and were delighted with the story of its beauty,

speed, comfort, safety and low price.

All day long and far into the night, great crowds gathered in hundreds of Ford salesrooms from Maine to Florida and from New York to San Francisco. Never has such interest been shown in a new car. Never has any new car so far exceeded expectations.

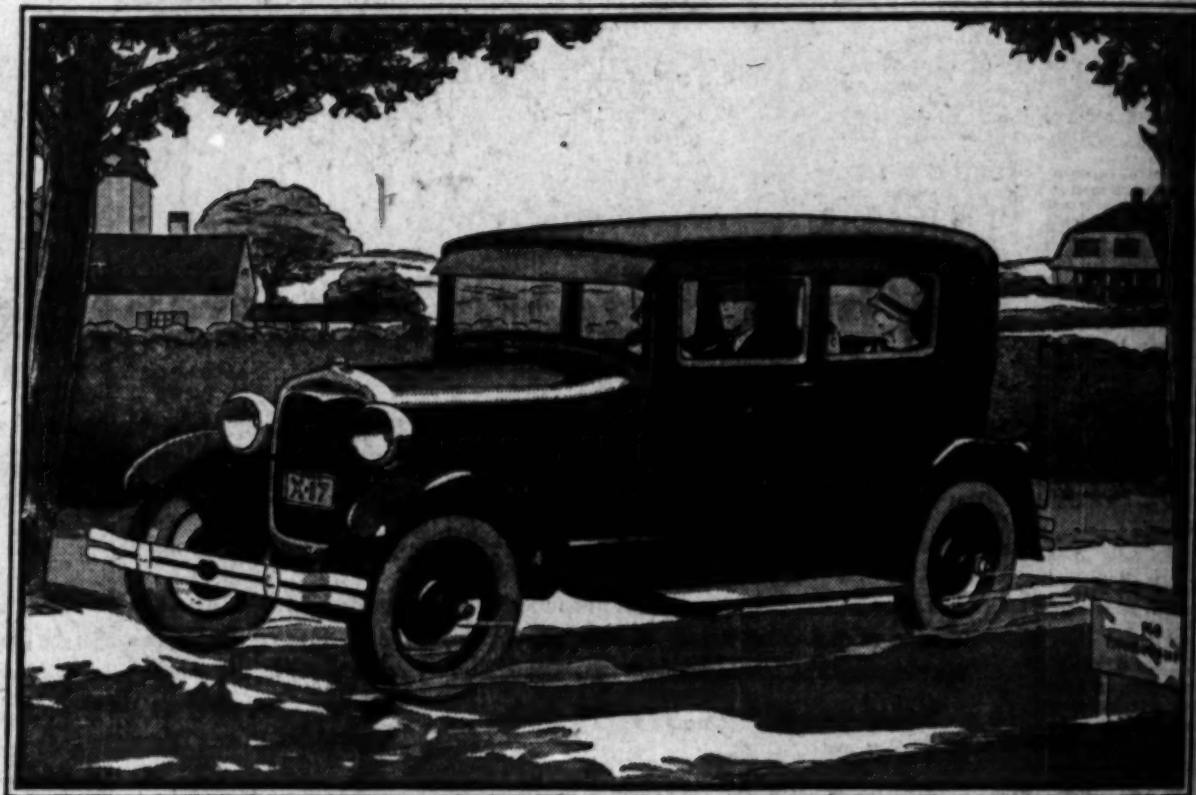

People knew that Ford was making a new car. They knew it was a good car. They had read announcements about it. But they had no idea it would be a car like this. Their quick appreciation of it is shown by the record-breaking sales.

## Greatest day in the history of the automobile industry

Thousands upon thousands of orders for the new Ford car have been received since last Friday. These and the advance orders placed with us by motorists even before the car was officially announced, will keep the entire Ford plant working day and night for weeks to come.

Such figures are a clear and unmistakable reflection of the value that has been built into the new Ford car. It is, without question, the outstanding purchase of all time in the light-car field.

Until you see the beauty of the new Ford car—ride in it—know the thrill of driving it easily and safely

NEW FORD TUDOR SEDAN

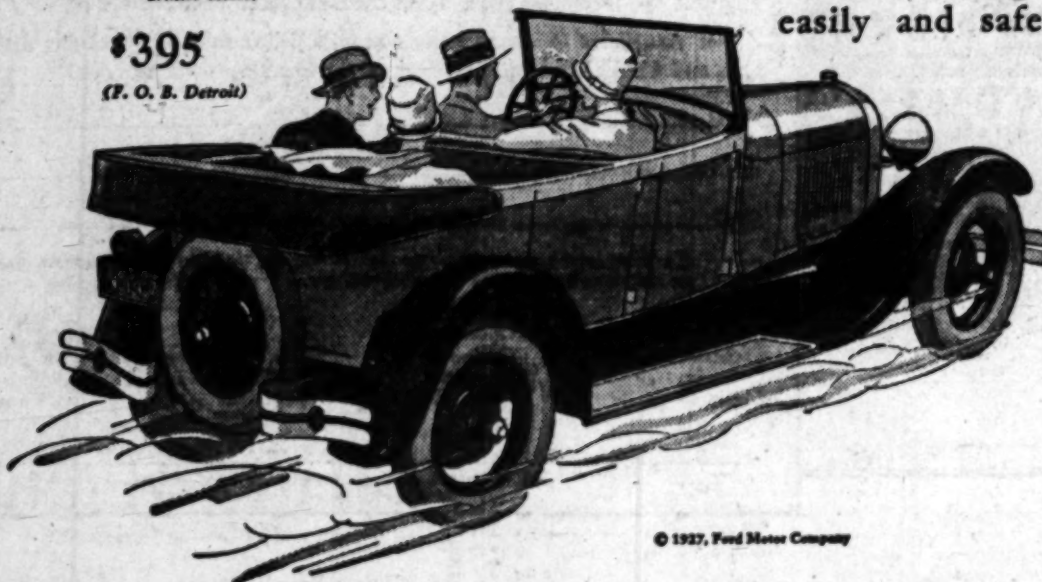

An example of the fine coachwork of the new Ford cars. New military-type sun visor and with crown roof. Narrow \$495 (F.O.B. Detroit). Pillars and new door construction give unusual vision. Both front seats fold forward, giving easy access to rear seat. Ample space between seats. Your choice of four colors—an unusual feature in a low-price car.

**FEATURES OF THE NEW FORD CAR**  
Beautiful new low body lines  
Choice of four colors  
55 to 65 miles an hour  
Remarkable acceleration  
40 horse-power  
Four-wheel brakes  
Standard, selective gear shift  
Hydraulic shock absorbers  
20 to 30 miles per gallon of gasoline  
Theft-proof coincidental lock  
Typical Ford economy and reliability

**STANDARD EQUIPMENT ON ALL NEW FORD CARS**  
Starter Dashlight  
Five steel-spoke wheels Mirror  
Windshield wiper Rear and stop light  
Speedometer Oil gauge  
Gasoline gauge Tools  
Pressure grease gun lubrication

**THE NEW FORD PHAETON**  
Another long, low, roomy car. All four doors open forward. Curtains open and close with doors. Side curtains have unusually large windows. Your choice of four artistic colors.

\$395  
(F. O. B. Detroit)

© 1927, Ford Motor Company

through thickest traffic or step it up to sixty and sixty-five on the open road, you cannot begin to appreciate the extent of the many mechanical improvements embodied in its construction. It is difficult to believe that so much speed, power, beauty, quiet, comfort and safety can be had at such a low price. It would be impossible if this new car were made by anyone but Ford.

## Only Ford could sell such a fine car at such a low price

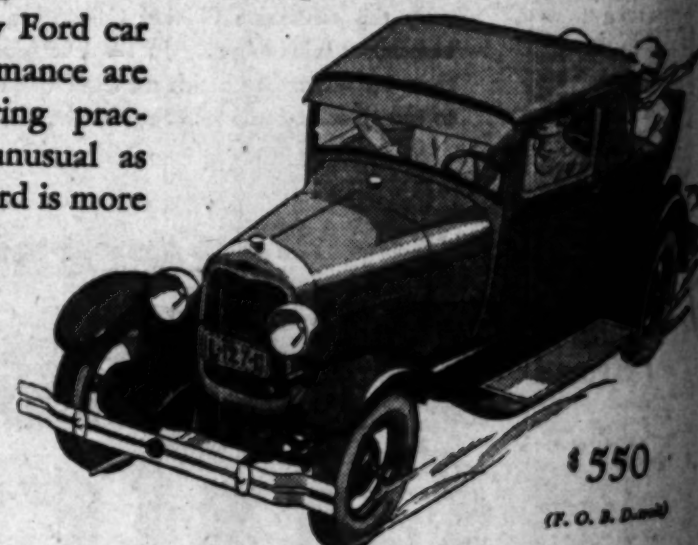

The low price of the new Ford car and its exceptional performance are the result of manufacturing practices and economies as unusual as the car itself. The new Ford is more than a new automobile. It is a new idea in modern, economical transportation.

By all means, take a little while today to learn about this new automobile. You will know that there is nothing quite like it anywhere in quality and price.

## Six beautiful new Ford cars at surprisingly low prices

New Phaeton	\$395
New Roadster	\$385
New Sport Coupe	\$550
New Tudor Sedan	\$495
New Coupe	\$495
New Fordor Sedan	\$570

(All prices F. O. B. Detroit)

NEW FORD SPORT COUPE

Combines the alert smartness of the roadster and the advantages of a closed car. Rumble seat standard. Landa louvers on rear quarter. Finished in four artistic color harmonies.

# Two Men and Woman Robbed and Slugged by Bandits

## TWELVE OTHERS MEET FOOTPADS

Girl Victim Unconscious for Five Hours

Housewife Beaten in Home by Burglar Trio

Highway Men Cover City in Week-end Exploits

One man sustained a possible skull fracture, another was beaten severely, a woman was attacked and left unconscious on the street for five hours before she was found, and a dozen other persons were held up and robbed in week-end crime reports filed with police.

Attired only in his underclothing and almost unconscious, James Hogg, 39 years of age of 481 South Hogg street, was found lying in a vacant lot in the 800 block on South Hogg street by a citizen.

Hogg was taken to the Georgia-street Receiving Hospital, where it was found he had suffered a possible skull fracture. He was removed later to the Central Hospital. Hogg told police that all he remembered was being out Saturday night with several men who gave him liquor.

### LIES ON SIDEWALK

Bras Gromiak, 28 years of age, of 3118 Burton avenue, reported she was held up at Third and Boyle avenues while waiting for a street car. When her assailant attempted to grab her purse she resisted and was knocked unconscious. Five hours later Sgt. Walburn and Officer Pharrman reported they found the girl lying on the sidewalk just recovering her senses. The bandit obtained \$20.

Two men and a woman, the men armed with revolvers, entered the home of Mrs. Lola Gonzalez at 712 Westlake avenue, grabbed her by the throat and kicked her, she reported to police. After they had gathered up clothing valued at \$407, the trio forced her to sit in the kitchen while they consumed a dish of spaghetti. The bandit cooked a hot supper, Mrs. Gonzalez told police. Threatening to return and kill her if she reported the matter, the trio fled in an automobile. When he raised his hands to defend himself, V. Gironi of 447 North Fremont avenue was beaten unconscious by two bandits at College street and Broadway, he reported. The bandits obtained \$52.50.

### WORK OF GANG

Believed to be the work of an organized gang of bandits, the robbery and two employees were held up and robbed in the Melrose Bottle and Cork Company establishment at 795 North Western avenue.

The victim, Sam Cook, proprietor, Louis Krone and Cecil Fritz, reported to police. The bandits entered the establishment just as they were closing up, held them up and forced them into a small rear room. There they relieved Cook of \$275, Krone of \$220 and a 6000 diamond ring, and returned Fritz's money because it was but a small amount. The trio was then locked into the room. Then bandits joined a confederate in an automobile parked in front and fled. Just as they were driving into their garage at the rear of their home at 3378 Cimarron street, E. N. Sample, grocer, and his wife were held up by two men and robbed of \$500. Mrs. Sample was grabbed by the arm by one of the bandits as she got out of her husband's automobile to open the garage door. The other forced the grocer to drive into the garage and closed the door. Remarking that they would return Sample's brief case which contained the money after they had cleaned it of fingerprints the bandits fled.

### GETS HER REVOLVER

Alfonso Gonzalez of 418 North Mission Road had an unusual experience with a negro woman armed with a revolver. Gonzalez told police the woman stepped out from behind a billboard near his home and pointed a revolver at him. He grabbed the pistol, leveled it and pulled the trigger twice. The gun failed to fire. At that moment a man companion of the woman pressed a gun against the victim's back and extracted \$200 from his pockets. Still clutching the revolver he had taken from the woman Gonzalez fled.

## LITTLE FAMILY PARTY GOES A-TOURING

Mere Eighteen Make Up Group Sailing for Hawaii

Mr. and Mrs. A. F. Frudden and Family

He later turned it over to the police. Charles H. Ingram of 830 Gladys street reported being held up at Eighth and Kohler streets by two bandits and robbed of \$52. While collecting his paper money John Degenkolb, a newsboy, was held up by two men and robbed of \$4.50. Broke D. Vianahor of 887 North Avenue 87, told police he and a woman friend were held up while they were sitting in his automobile at Pasadena avenue and Echo street, and robbed of \$21.

### EXTENSION

WORK HERE SHOWS GAIN

University Enrollments Increase 1500 in Three Months' Period

Increasing its enrollment in Southern California 1500 over a similar period in 1926, the extension division, University of California, recorded 1965 enrollments for the three months ending November 30. It was announced yesterday at headquarters of the division in the Hillstreet Building.

Of the total more than 4600 enrolled from the city of Los Angeles. Pasadena city made an amazing increase from thirty-eight the first three months of the fall term last year to 618 the same months in 1927. This was due, it was stated, to the installation of an organizer in the field.

### CHRISTIAN SCIENCE

TALKS ANNOUNCED

Christian Science lectures, free to the public, will be delivered by James O. Rowell, C.S., of Kansas City, as follows: Wednesday, Third Church, 734 South Hope street, given jointly by Churches of Christ, Scientist, of Los Angeles, at 12:10 p.m. (which will be broadcast over KFI.) and Friday, Tenth Church, 988 West Forty-ninth street, 8 p.m.

THE largest single family ever to make a trans-Pacific voyage sailed from the harbor on the Laseco liner City of Los Angeles this week-end, when eighteen members of the family of Mr. and Mrs. A. F. Frudden of Beverly Hills departed for a trip to Hawaii and back to celebrate the golden wedding of the two.

Gathering from all parts of the United States the Frudden clan has been assembling in Los Angeles for the past week. They went aboard the big liner in a body, established themselves in seven staterooms, chartered about half the deck chairs on the port side and proceeded to settle down for a real family reunion.

So far as the records show, thirteen members of a family in the largest heretofore recorded on trans-Pacific voyages. That number is credited to Thomas Wilson of England-Walton leather fame, who went out on the liner Ventura some time ago. The Frudden family surpasses the Walton delegation by five members, however, and sets a record that is liable to stand for some time.

### SWIMMING

POOL PLAN FURTHERED

Exposition Park to Have Immense Tank for Use in 1932 Olympic Games

An immense swimming pool, heated for all-year use and technically adapted to the Olympic water events and aquatic games of 1932, to be constructed in front of the new uncompleted grand stand in Exposition Park has been approved by the Los Angeles Playground and Recreation Commission, subject to approval of the Sixth District Agricultural Board, which has jurisdiction over the grand stand.

### NEW ENGLANDERS TO RALLY

A final call for former residents of any of the New England States to attend the rally Tuesday evening at Veterans' Hall, 946 South Hill street, is issued by Dr. G. H. MacNeill, president of the New England States Society. A program of New England songs, dancing and other features has been arranged.

## MEMORIAL TO DE ANZA DEDICATED

Los Angeles' First Tourist Honored With Monument by Historical Society

More than 500 persons attended dedication services yesterday at Carthy Center where a memorial was unveiled to Juan Bautista De Anza. De Anza was the first man to establish communication between Sonora, Mex., and California. Judge Charles A. Thompson, Grand President of the Native Sons of the Golden West, Herman Lichtenberger, Past Grand President, and John T. Newell, third Vice-President, officiated.

Father O'Sullivan of San Juan Capistrano Mission, told how De Anza organized a party of followers in 1774 and, after months of hardship arrived at San Gabriel Mission. A second party followed a year later. Members of the party became the first citizens of San Francisco, Father O'Sullivan explained.

Rev. E. P. Ryland accepted the statue in behalf of Los Angeles. The statue is the work of Henry Lion, California sculptor. The erection of the memorial was sponsored by the Los Angeles Historical Society.

## Indian Chief's Daughter Gets Warm Greeting

Foraking her tapes on a Wyoming reservation, Princess Yellowtail, daughter of an Arapahoe chief, homed her way 3000 miles over the highway to Los Angeles, her dreamland of Paradise, only to spend the first day here in the City Jail.

"Don't send me back to the reservation. I want to earn my living here," pleaded the Princess at the time of her arrest. She was taken to the County Jail by Police Officer Hayes and Haynes, the officers testified at her trial in Municipal Judge George Bullock's court.

The law guardians stated they found the Indian Princess bailing out of passing automobiles and they placed a charge of vagrancy against her when it appeared she had no visible means of support. Defender Nelson called the court's attention to the statute that Indians cannot be classified as vagrants.

Judge Bullock then imposed a thirty-day suspended sentence to hold the defendant under jurisdiction of the court. The lecture will be devoted to the time of her arrest. The court also will be available for the Olympic tournaments.

## Woman to Talk on Vocations

Adelaide Steele Baylor, chief of home economics, Education Service of the Federal Bureau for Vocational Education, will give a series of six free lectures, the 5th to the 15th inst., at the University of Southern California.

Mrs. Baylor is widely known in national educational circles. She is a former president of the National Council of Education and Executive and Administrative Women in Education and is at the present secretary of the National Council of Education.

The lectures will be devoted to the broader field of vocational education and will be given each day at 8 p.m.

### ATE HIS DECOY DUCK

Auctioneer Knew About It, Says Mrs. Hammond

W. Dwight Hammond, auctioneer, knew very well the duck he ate for dinner that Christmas Day, was his pet mallard decoy, Mrs. Pearl Hammond relates in a spirited answer to his cross-complaint for divorce which is on file in the office of County Clerk Lampton.

He knew just what duck it was, because he had helped her pick its feathers, Mrs. Hammond declares. So, she argued, she can see no reason why he should try to tell the court that he had been deceived into eating his old friend and hunting companion.

In his cross-complaint that is the charge Hammond makes. Mrs. Hammond explained the duck was eaten as a matter of making peace with the health department, which had notified them that the duck was attracting rats to their premises.

### SANTA CLAUD NEEDS AIDS

The City Council Finance Committee has recommended the transfer of \$200 to permit the Social Service Commission to employ three persons to help distribute Christmas baskets.

## SHOUTING ALOUD SERVICE BARRED

Assessment Lien Notice Evasion Beaten

Judge Holds Calling for Owner Not Enough

Foreclosure Suits Lost on Pasadena Lots

An offer to show that notice of assessment was served by a representative of the plaintiff shouting aloud on three lots in South Pasadena owned by John W. Flint and his wife did not get very far with Superior Judge Ambrose, who found for the defendants in suit brought by Ernest Montgomery to foreclose street-assessment liens, court costs and attorney fees against the property.

The defendants stated that the first they knew of the assessments was when three separate suits on the three lots were filed to foreclose the liens.

The court held that Montgomery did not have a valid case against the Flints, who had paid the assessments promptly on the first notice they had of such assessments, which was in the form of the suits. Judge Ambrose declined to recognize the serving of notice by an agent of the plaintiff shouting aloud on the lots about the assessment, when proper legal means were available.

In any event, he concluded, there might be a lot of shouting done, but if the defendants were not in the neighborhood, or were hard of hearing, it would avail them little. The three actions were heard jointly and the decision for the defendants applied to all three cases.

## ACTOR TAKES UP DERBY DEFENSE

(Continued from First Page)

for whose faces on the screen have caused maiden ladies to scream and married ones to make odious comparisons with husbands playing the part of the second pair, will now step forward.

"The derby," this rugged man of parts announced, "shall not pass. At least I have my say about it."

"Compared to the weak and ineffectual forces of thatch coverings now in vogue among the supposed sterner sex, this good old dome-shaped stands out like a natural blond in a person's display booth."

"Tell me, what other headpiece has the character of this staunch old number?"

"There is no answer and for good reason. There cannot be one. This masterpiece of the hatter has more character than a New England dinner. It is one-tenth of an inch and you can change the contour of any facial landscape. By slight maneuverings this topper of destiny can run the gamut of human emotions. Fear, anger, love, hate, cowardice, greed—they all bow to the will of this grand old number."

"And, furthermore, let me make this grave prediction. 'Take this glorious gift of the gods and one of the most notable contributions ever made to the cause of art will perish from the face of the earth.'

"I refer, of course, to the stage and screen interpretations of hotel house detective in action."

The society for the prevention of the wearing of hats in 1928 international convention on the summit of Mt. Everest.

## FIVE KILLED IN AUTO CRASHES

(Continued from First Page)

Several hours later, J. H. Rollins, 941 San Pascual avenue, and H. J. Russ, 138 Los Flores avenue, drivers of the cars which were struck by Blakes, were uninjured.

Police last night were searching for a hit-and-run driver who disappeared after a car driven by Anne Romero, 27 Watts, collided with a machine listed as belonging to J. H. Morgan, 118 East Ninety-sixth street. Edward J. Payne, 46 1/2 East Ninety-sixth street, a passenger in the car, and Romero were found sitting on the curb badly bruised and cut after the accident, but no trace could be found of the driver.

Outing out to avoid another car at Eighth and Florence avenues, Lester L. Buerge, 457 Twenty-third avenue, Santa Monica, overturned his car, spilling his entire family of five persons out into the street. Two daughters, Ethel, 23, and Alberta, 10, were seriously cut by broken glass and possible internal injuries. He was taken to the Georgia-street hospital where his condition is said to be serious.

Doris Lee Van Bibber, six months of age, died in Pasadena yesterday as the result of injuries received in an auto accident November 20, while Carl Wolfe, 80, died at his home, 808 Sierra street, as the result of injuries received in an accident August 11, last.

## Widow Enters Suits in Death by Exhaust Gas

Asserting that her husband, John P. Campbell, 58 years of age, met his death accidentally by inhaling carbon monoxide gas while working on his automobile, Mrs. Hazel K. Campbell has filed in United States District Court a suit for \$25,000 against one insurance company and \$50,000 against another.

In the complaint it is asserted that death was by accident, but that neither company would pay the claims. She is suing the Zurich General Liability Insurance Company, a Switzerland concern, for \$20,000, and Continental Casualty Company for \$30,000.

Government chemists who began studying ways of making use of patent hulls in 1921 have found five possible commercial uses for them.

room cases  
(Kernan, 1957, p. 100)

## HOUSEHOLD SUGGESTIONS

**No Loss**  
When you wash your crocheting slip a large safety pin through the last loop made. Then if it is pulled out hastily the work will not come off.

**Gathers the Dust**  
Place a bit of cotton soaked with kerosene in the bottom of the case of your clock. Remove in a couple of days and you will be surprised how much dust it has collected.

**Ten Stains**  
When ten is spilled on the tablecloth, cover the spot immediately with a common salt wet stand for a while and when the cloth is laundered, all stains will have disappeared. This rule also apply to freshly spilled wine.

**A Utility Apron**  
One housewife fastens a small handkerchief to her apron string by means of the loop that forms the handle. Whenever she is doing kitchen work she can drier her hands on this and keep her apron from becoming soiled. Kitchen with a neat appearance.

**Tasty and Pretty**

Frequently we like the ice cream the afternoon to be just a bit "silly," and then we serve "caramel coffee" ice cream in sherbet glasses and on each serving place a dab of whipped cream, on top of which we tinkle finely chopped nuts.

**Following Housecleaning**  
If your hands are sore and rough

housecleaning, try this method making them soft and white. Wash hands in very hot water before re-  
ing. Make a soapy lather from re white soap and rub this lather on the hands, along with a few  
ops of glycerine. Let the lather on the hands, and in the morning

**Various Tips**

A number of mirrors will add size to the small room.

First-aid supplies should be in the medicine closet of every home.

The ice pick is a fine weapon to punch holes in the cleansing powder

Stretching the Dinner

meat seems scanty, cut it in the hen and, if need be, serve on hottered toast. One always has a can of potatoes and a can of tomatoes may be stewed and added to menu along with the fresh vegetables we had already planned. Hotting powder biscuits are a mat-

of five minutes. A can of asparagus tips may be opened and used on lettuce leaves for a salad. Dessert is not already planned and adequate, the can of fruit and a tin of sweet crackers will make a nice dessert, making in all a plentiful dinner, with no worry and wonder on the part of the housewife. But she says you realize just how important it is to have a good dinner.

## AUSTIN AND BUSHMAN LEAD ACTS

### Recording Artist Shares Honors With Film Player

Two men who, through the years, have endeared themselves to a fair portion of the populace—and this entirely by mechanical means—were featured in the melodrama of the same title. On the stage of the Orpheum this week, One has made his shadow-puppet scene felt from a thousand feet, and the other picture is lifted among the first to be screened to a place of idolatrous worship. The other, allowing himself to be carried away by the intimate confines of the home—and this for a mere pittance—has discovered perils on life and love, blue and red, and has been rescued from within a hollow box.

The film actor is Francis X. Bushman; the record artist, Gene Austin. Both have the appearance, suggests Julian Kittinge. He has a round, cheery face and a personality to

of his enunciation, his effortless scaling of notes in the higher register, his distinguishing qualities. His Orpheum repertoire, naturally, culled from his most recent photograph hits, notably "Yesterday," "My Blue Heaven" and "Tonight You Belong to Me." The broadness of Austin's accents invites songs of the Southland—and these, too he croons.

Bushman's speaking voice is reminiscent of John Barrymore. And

[illegible]

gladdest suit, a derby and a large flower in his boutonhole.

There are no gaudy costumes, marriages, colds and similarly diverse subjects make the turn devoted to Ethel Davis pleasant enough. The picture is a study in the type of the modern young ladies who arrive periodically at the theater, winning their way quickly into the confidence of the audience by the force of their portrayals of this one and that another lifted from the Comedie Humaine.

A series of dances tastefully interspersed with the story, the "Cherry Blossom" by Fay and Edna Chaney, Edward Fox and their company of two. Here the graceful walk, to the dreamy strains of "Auf Wiedersehen" and "Kiss Me Again," is represented.

Passable entertainment is furnished by Marie White and the Blue Blizzards, a quartet of four, and William Brick and his company in "Sensational Risley and Trampoline Distraction"—but whether the last

## OUR HISTORY IN PICTURES 890 Buffalo Bill, Scout of Scouts—Part XXXI Bill Cody Goes to War.

by J. CARROLL MANSFIELD

IN 1861 CAME THE OUTBREAK OF THE GREAT CIVIL WAR, AND BILLY CODY SAW MANY OF HIS FRIENDS MARCH AWAY, SOME TO DON THE UNION BLUE, OTHERS THE CONFEDERATE GRAY. BILLY WANTED TO GO, TOO.

BUT THE BOY WAS TOO YOUNG TO ENLIST, AND HIS MOTHER, WHO WAS IN POOR HEALTH AND NEEDED HIM TO HELP HER TAKE CARE OF THE FAMILY, PERSUADED HIM NOT TO GO.

TWO YEARS LATER MRS. CODY DIED. BILLY, NOW NEARLY EIGHTEEN, HAD KEPT HIS PROMISE TO HIS MOTHER, AND HIS SISTERS WERE NOW WELL PROVIDED FOR.

IN 1863, WHEN THE WAR WAS AT ITS FULLEST, HE EXCHANGED HIS SUIT OF CIVILIAN CLOTHING FOR A BLUE UNIFORM. THE RECRUITING OFFICER HE HAD ENLISTED WAS SOON ORDERED TO THE FRONT.

### BAND TO KEEP TOWN CLEAN

HOLLYWOOD, Dec. 4.—The town beautiful is the slogan of the local clean-up club, and members have plans to place at all street corners receptacles for waste paper and refuse. The club usually is made up of the women of the town, and some of the members are of the town's elite. The club members are now working on the slogan of the town beautiful.

### Corporation Contests Keep Citizens Awake

STATION PARK, Dec. 4.—A contest in the way of annexation territory is going on between the cities of Station Park and Lynwood, south of Los Angeles. The contest is a result of the fact that the two cities are both seeking annexation to the city of Los Angeles. The contest is a result of the fact that the two cities are both seeking annexation to the city of Los Angeles.
